

IN-HOME INSPECTION REQUIRED CONSENT AND RELEASE FORM

Drinking Water Service Line Investigation

Your address was randomly selected per Department of Environment, Great Lakes, and Energy (EGLE) guidelines.

PURPOSE

A reliable inventory of potable water service line materials is important for service line replacement planning, effective asset management, and notification of citizens served by lead service lines. Reliability and completeness of service line records can vary both across and within water supplies. therefore, it is important that suppliers take steps to verify service line materials and records. Water supplies are not expected to physically verify every service line, but rather a statistically sound subset. To effectively evaluate the accuracy of service line records and/or predict service line materials, a representative, uniformly random number of service lines must be physically verified. The contractor will use Hydro Excavating approximately 18-inches diameter hole shown above to expose the water service at point 2 and 3 shown on page 2. Point 1 should visually inspected inside the property.

What does this mean?

IN-HOME INSPECTION

EGLE MANDATED THAT BERLIN CHARTER TOWNSHIP INVESTIGATE RESIDENTS' WATER SERVICE INSIDE THE PROPERTY TO DETERMINE IF THERE IS A LEAD SERVICE. YOUR ADDRESS WAS RANDOMLY SELECTED FOR INSPECTION. IF YOU PREFER YOU CAN TAKE A PICTURE OF YOUR SERVICE LINE AT THE WATER METER. PLEASE COORDINATE A DAY AND TIME FOR AN IN-HOME INSPECTION TO BE COMPLETED OR EMAIL OR TEXT BERLIN

TOWNSHIP ENGINEER REPRESENTATIVE AHMAD ALI AT 734-341-7154 EMAIL
ADALI@HENGINEERS.COM OR THE CONTRACTOR BRANDON BETRUS AT 989-302-0669
EMAIL BRANDON@SUPERCONST.COM THE PICTURE, PLEASE INCLUDE YOUR NAME,
ADDRESS AND CONTACT NUMBER.

The purpose of this Agreement is to set forth the terms and conditions pursuant to which the Berlin Charter Township (the "Township") will verify the undersigned owner's property located at _____ at no cost to the homeowner.

This Agreement anticipates that a contract will be awarded by the Township for the work to be performed under this Agreement.

WHEREAS, supply lines are attached to the main water distribution pipes owned and maintained by the Berlin Charter Township within the Berlin Township right-of-way, and supply lines are maintained and repaired at the expense of the property owner.

WHEREAS, in this instance, due to changes in the Lead and Copper Rules established by the State of Michigan on June 14, 2018, lead and galvanized water service lines are to be identified from the water distribution pipe to the house; therefore, the Township will verify the supply line from the water distribution pipe to a minimum of eighteen (18) inches into the house and or to the meter per the revised Lead and Copper Rules;

NOW THEREFORE, the property owner(s) signing this agreement does hereby warrant that he/she is the sole owner of the house and has the authority to enter into this agreement and further, that the property owner(s) authorize the Township or it's agent to inspect the supply line at the house located at the above state address at no cost to the homeowner.

Signed by the Owner(s) this _____ day of _____ 20_____.
